

Drug Repositories Operating in Ohio

Did you know that up to \$11 billion in unopened, unexpired medicine gets destroyed each year?

Effective May 27, 2023, Ohio law permits the donation of unexpired medications to charitable pharmacies, hospitals, or nonprofit clinics from the public. This includes medications that may be leftover due a change in regimen or the death of a loved one.

To assist Ohioans in donating their unexpired medications and to help those in need who may need assistance obtaining medications, the Board requires a repository program that collects or dispenses medications to the public to submit notification within 30 days of establishing a repository program.

Please be advised that Ohio law and rules prohibit the donation of the following medications from directly from patients:

1. Controlled substances.
2. Drug samples, unless the repository is operated by a charitable pharmacy.
3. Radiopharmaceuticals as defined in rule 4729:5-8-01 of the Administrative Code.
4. A drug for which the United States Food and Drug Administration requires, as a risk evaluation and mitigation strategy (REMS), that the patient be registered with the drug's manufacturer.
5. Compounded drugs.

Please be advised that some repository programs only accept donations of certain types of medications. Those looking to donate or obtain medications should contact the repository using the contact phone number listed in the table starting on the next page.
