**FINDINGS OF FACT**

After having heard the testimony, observed the demeanor of the witnesses, considered the evidence, and weighed the credibility of each, the State Board of Pharmacy finds the following to be fact:

See attached Notice of Opportunity for Hearing letter dated July 19, 2005. The following paragraphs were dismissed on November 6, 2006 pursuant to agreement: paragraphs 33, 245, 290, 309, 315, 321, 330, 382, 386, 409, 421, 482, 554, 678, 703, 718, 788, 1000, 1045, 1064, 1070, 1076, 1085, 1137, 1141, 1164, 1176, 1237, 1309, 1433, 1458, and 1473.

The Board is cognizant that both rule 4729-5-21 (formerly embodied in rule 4729-5-30) of the Ohio Administrative Code and Section 1306.04 of Title 21 of the Code of Federal Regulations state that a pharmacist has a corresponding responsibility with the prescriber to ensure that a prescription is issued for a legitimate medical purpose by a licensed prescriber in the usual course of professional practice. This is axiomatic in the pharmacy profession. This means that a pharmacist must review every prescription for legitimacy and must then make a professional judgment on whether or not to fill the prescription. Every pharmacist is accountable to this Board and to society for what he knew or should have known due to professional training, experience, licensure, and continuing pharmacy education in pharmacy law. Obviously, the dispensing pharmacist need not review the prescriber's patient chart; rather, the required judgment to be exercised must be based upon the pharmacist's extensive knowledge and training in drug therapy, the pharmacist's knowledge of the patient (obtained through profile information required by rule 4729-5-18 of the Ohio Administrative Code, a review of that profile as required by rule 4729-5-20 of the Ohio Administrative Code, and other discussions with the patient pursuant to rule 4729-5-22 of the Ohio Administrative Code), and the pharmacist's knowledge of the prescriber's practice, particularly as it relates to other similar practices in the region.

This pharmacist shirked his responsibilities in this regard, ignoring numerous obvious indicators of illegal prescribing activity on the part of the physicians involved in this case. Some of these indicators include the large numbers of patients who drove very long distances to come to these physicians and this pharmacy and the almost identical treatment of a problem (pain) that requires individualization of treatment dosages and drugs more than any other health-related problem. Individualized treatment for pain is required in all aspects of health care and is specifically stated in rule 4731-21-02 of the Ohio Administrative Code, yet was clearly ignored by this pharmacist. Moreover, it is significant that practically all of the patients from these prescribers paid cash for their prescriptions instead of using insurance as is usually the case for the overwhelming percentage of prescriptions filled today. It is clear that this

pharmacist consciously ignored his obligations to the patients simply for monetary gain.

Re: Ohio Registered Pharmacist  
License No. 03-3-19932

Dear Mr. Dennis:

YOU ARE HEREBY NOTIFIED that, in accordance with the provisions of Chapters 119. and 4729. of the Ohio Revised Code, the Ohio State Board of Pharmacy will determine whether or not to take action, and that you are entitled to a hearing before the State Board of Pharmacy, on the basis of the following allegations:

- (1) Records of the State Board of Pharmacy indicate that you were originally licensed in the State of Ohio on July 28, 1993, pursuant to examination, and are currently licensed to practice pharmacy in the State of Ohio. Records further reflect during the relevant time periods stated herein, you were the Responsible Pharmacist at Strasburg Pharmacy, 1120 North Wooster Avenue, Strasburg, Ohio, pursuant to Sections 4729.27 and 4729.55 of the Ohio Revised Code and Rule 4729-5-11 of the Ohio Administrative Code.

Each of the enumerated paragraphs below constitutes a separate violation of the Pharmacy Practice Act. For each paragraph, you did, on or about the following dates, knowingly sell, conspire to sell, and/or aid and abet the sale of a controlled substance when the conduct was not in accordance with Chapters 3719., 4729., and 4731. of the Ohio Revised Code, to wit: you sold the following controlled substances to the following patients when not for a legitimate medical purpose issued by a prescriber acting in the usual course of his professional practice and in compliance with administrative code rules addressing pain management and violating Rule 4729-5-30 of the Ohio Administrative Code and 21 CFR 1306.04. (Only the controlled substance sales, **bolded**, are included in the substance of paragraphs 2 through 755; the dangerous drug sales are shown to exemplify that the sales alleged in these paragraphs were not for the bona fide treatment of the patient.)

**FINDINGS OF FACT**

After having heard the testimony, observed the demeanor of the witnesses, considered the evidence, and weighed the credibility of each, the State Board of Pharmacy finds the following to be fact:

See attached Notice of Opportunity for Hearing letter dated July 19, 2005. The following paragraphs were dismissed on November 6, 2006 pursuant to agreement: paragraphs 33, 245, 290, 309, 315, 321, 330, 382, 386, 409, 421, 482, 554, 678, 703, 718, 788, 1000, 1045, 1064, 1070, 1076, 1085, 1137, 1141, 1164, 1176, 1237, 1309, 1433, 1458, and 1473.

The Board is cognizant that both rule 4729-5-21 (formerly embodied in rule 4729-5-30) of the Ohio Administrative Code and Section 1306.04 of Title 21 of the

Code of Federal Regulations state that a pharmacist has a corresponding responsibility with the prescriber to ensure that a prescription is issued for a legitimate medical purpose by a licensed prescriber in the usual course of professional practice. This is axiomatic in the pharmacy profession. This means that a pharmacist must review every prescription for legitimacy and must then make a professional judgment on whether or not to fill the prescription. Every pharmacist is accountable to this Board and to society for what she knew or should have known due to professional training, experience, licensure, and continuing pharmacy education in pharmacy law. Obviously, the dispensing pharmacist need not review the prescriber's patient chart; rather, the required judgment to be exercised must be based upon the pharmacist's extensive knowledge and training in drug therapy, the pharmacist's knowledge of the patient (obtained through profile information required by rule 4729-5-18 of the Ohio Administrative Code, a review of that profile as required by rule 4729-5-20 of the Ohio Administrative Code, and other discussions with the patient pursuant to rule 4729-5-22 of the Ohio Administrative Code), and the pharmacist's knowledge of the prescriber's practice, particularly as it relates to other similar practices in the region.

This pharmacist shirked her responsibilities in this regard, ignoring numerous obvious indicators of illegal prescribing activity on the part of the physicians involved in this case. Some of these indicators include the large numbers of patients who drove very long distances to come to these physicians and this pharmacy and the almost identical treatment of a problem (pain) that requires individualization of treatment dosages and drugs more than any other health-related problem. Individualized treatment for pain is required in all aspects of health care and is specifically stated in rule 4731-21-02 of the Ohio Administrative Code, yet was clearly ignored by this pharmacist. Moreover, it is significant that practically all of the patients from these prescribers paid cash for their prescriptions instead of using insurance as is usually the case for the overwhelming percentage of prescriptions filled today. It is clear that this pharmacist consciously ignored her obligations to the patients.

#### **CONCLUSIONS OF LAW**

- (1) The State Board of Pharmacy concludes that each of the paragraphs in the Findings of Fact constitute being guilty of gross immorality as provided in Division (A)(1) of Section 4729.16 of the Ohio Revised Code.

- (3) The State Board of Pharmacy concludes that each of the paragraphs in the Findings of Fact constitute being guilty of willfully violating, conspiring to violate, attempting to violate, or aiding and abetting the violation of provisions of Chapters 2925. and 3719. of the Revised Code as provided in Division (A)(5) of Section 4729.16 of the Ohio Revised Code.

Re: Ohio Registered Pharmacist  
License No. 03-2-16426

Dear Ms. Froman:

YOU ARE HEREBY NOTIFIED that, in accordance with the provisions of Chapters 119. and 4729. of the Ohio Revised Code, the Ohio State Board of Pharmacy will determine whether or not to take action, and that you are entitled to a hearing before the State Board of Pharmacy, on the basis of the following allegations:

- (1) Records of the State Board of Pharmacy indicate that you were originally licensed in the State of Ohio on July 28, 1993, pursuant to examination, and are currently licensed to practice pharmacy in the State of Ohio. Records further reflect during the relevant time periods stated herein, you were the Responsible Pharmacist at Strasburg Pharmacy, 1120 North Wooster Avenue, Strasburg, Ohio, pursuant to Sections 4729.27 and 4729.55 of the Ohio Revised Code and Rule 4729-5-11 of the Ohio Administrative Code.

Each of the enumerated paragraphs below constitutes a separate violation of the Pharmacy Practice Act. For each paragraph, you did, on or about the following dates, knowingly sell, conspire to sell, and/or aid and abet the sale of a controlled substance when the conduct was not in accordance with Chapters 3719., 4729., and 4731. of the Ohio Revised Code, to wit: you sold the following controlled substances to the following patients when not for a legitimate medical purpose issued by a prescriber acting in the usual course of his professional practice and in compliance with administrative code rules addressing pain management and violating Rule 4729-5-30 of the Ohio Administrative Code and 21 CFR 1306.04. (Only the controlled substance sales, **bolded**, are included in the substance of paragraphs 2 through 755; the dangerous drug sales are shown to exemplify that the sales alleged in these paragraphs were not for the bona fide treatment of the patient.)

### **FINDINGS OF FACT**

After having heard the testimony, observed the demeanor of the witnesses, considered the evidence, and weighed the credibility of each, the State Board of Pharmacy finds the following to be fact:

See attached Notice of Opportunity for Hearing letter dated July 19, 2005. The following paragraphs were dismissed on November 6, 2006 pursuant to agreement: paragraphs 33, 245, 290, 309, 315, 321, 330, 382, 386, 409, 421, 482, 554, 678, 703, 718, 788, 1000, 1045, 1064, 1070, 1076, 1085, 1137, 1141, 1164, 1176, 1237, 1309, 1433, 1458, and 1473.

The Board is cognizant that both rule 4729-5-21 (formerly embodied in rule 4729-5-30) of the Ohio Administrative Code and Section 1306.04 of Title 21 of the Code of Federal Regulations state that a pharmacist has a corresponding responsibility with the prescriber to ensure that a prescription is issued for a legitimate medical purpose by a licensed prescriber in the usual course of professional practice. This is axiomatic in the pharmacy profession. This means that a pharmacist must review every prescription for legitimacy and must then make a professional judgment on whether or not to fill the prescription. Every pharmacist is accountable to this Board and to society for what he knew or should have known due to professional training, experience, licensure, and continuing pharmacy education in pharmacy law. Obviously, the dispensing pharmacist need not review the prescriber's patient chart; rather, the required judgment to be exercised must be based upon the pharmacist's extensive knowledge and training in drug therapy, the pharmacist's knowledge of the patient (obtained through profile information required by rule 4729-5-18 of the Ohio Administrative Code, a review of that profile as required by rule 4729-5-20 of the Ohio Administrative Code, and other discussions with the patient pursuant to rule 4729-5-22 of the Ohio Administrative Code), and the pharmacist's knowledge of the prescriber's practice, particularly as it relates to other similar practices in the region.

These pharmacists shirked their responsibilities in this regard, ignoring numerous obvious indicators of illegal prescribing activity on the part of the physicians involved in this case. Some of these indicators include the large numbers of patients who drove very long distances to come to these physicians and this pharmacy and the almost identical treatment of a problem (pain) that requires individualization of treatment dosages and drugs more than any other health-related problem. Individualized treatment for pain is required in all aspects of health care and is specifically stated in rule 4731-21-02 of the Ohio Administrative Code, yet was clearly ignored by these pharmacists. Moreover, it is significant that practically all of the patients from these prescribers paid cash for their prescriptions instead of using insurance as is usually the case for the overwhelming percentage of prescriptions filled today. It is clear that these pharmacists consciously ignored their obligations to the patients simply for monetary gain.

### **CONCLUSIONS OF LAW**

- (1) The State Board of Pharmacy concludes that each of the paragraphs in the Findings of Fact constitute being guilty of violating any provision of Chapter 4729. of the Revised Code as provided in Division (A)(3) of Section 4729.57 of the Ohio Revised Code.
- (2) The State Board of Pharmacy concludes that each of the paragraphs in the Findings of Fact constitute being guilty of violating any provision of the federal drug abuse control laws or Chapter 2925. as provided in Division (A)(5) of Section 4729.57 of the Ohio Revised Code.

**DECISION OF THE BOARD**

Pursuant to Section 4729.57 of the Ohio Revised Code, and after consideration of the record as a whole, the State Board of Pharmacy hereby revokes the Terminal Distributor license, No. 02-1383200, held by Strasburg Pharmacy effective as of the date of the mailing of this Order. Further, the Board suspends the revocation provided there are no similar violations within the next year.

Re: Ohio Terminal Distributor  
License No. 02-1383200

Dear Mr. Dennis:

YOU ARE HEREBY NOTIFIED that, in accordance with the provisions of Chapters 119. and 4729. of the Ohio Revised Code, the Ohio State Board of Pharmacy will determine whether or not to take action, and that you are entitled to a hearing before the State Board of Pharmacy, on the basis of the following allegations:

- (1) Records of the State Board of Pharmacy indicate that you were originally licensed in the State of Ohio on July 28, 1993, pursuant to examination, and are currently licensed to practice pharmacy in the State of Ohio. Records further reflect during the relevant time periods stated herein, you were the Responsible Pharmacist at Strasburg Pharmacy, 1120 North Wooster Avenue, Strasburg, Ohio, pursuant to Sections 4729.27 and 4729.55 of the Ohio Revised Code and Rule 4729-5-11 of the Ohio Administrative Code.

Each of the enumerated paragraphs below constitutes a separate violation of the Pharmacy Practice Act. For each paragraph, you did, on or about the following dates, knowingly sell, conspire to sell, and/or aid and abet the sale of a controlled substance when the conduct was not in accordance with Chapters 3719., 4729., and 4731. of the Ohio Revised Code, to wit: you sold the following controlled substances to the following patients when not for a legitimate medical purpose issued by a prescriber acting in the usual course of his professional practice and in compliance with administrative code rules addressing pain management and violating Rule 4729-5-30 of the Ohio Administrative Code and 21 CFR 1306.04. (Only the controlled substance sales, **bolded**, are included in the substance of paragraphs 2 through 755; the dangerous drug sales are shown to exemplify that the sales alleged in these paragraphs were not for the bona fide treatment of the patient.)
