

## Approved Third-Party Intermediaries

**Updated 11/3/2025**

No prescriptions may be transmitted by means of an electronic prescription transmission system or computerized prescriber order entry system that converts the prescription or order into a computer-generated fax or scanned image [see OAC [4729:5-3-11](#) (C)].

This prohibition does not apply to any of the following (applies to non-controlled prescriptions **ONLY**):

- A board-approved third-party intermediary\* if the conversion is necessitated by a temporary telecommunication outage of the intermediary or receiving pharmacy.
- A board-approved system for the transmission of non-controlled prescriptions that converts the prescription into a computer-generated fax or scanned image if transmitted within a closed system.
- The transmission of a prescription for compounded total parenteral nutrition for dispensation by a pharmacy. **NOTE:** This does not require a Board-approved third-party intermediary or closed system. [Added via Board Resolution on 11/3/2025]

\*The following third-party intermediaries have been approved by the Board:

- Surescripts (Approved 12/11/2017)
- eRx Network (Approved 2/7/2018)
- WENO Exchange (Approved 11/6/2019)

If you are a third-party intermediary or closed system seeking Board approval, please contact the Ohio Board of Pharmacy via email: [contact@pharmacy.ohio.gov](mailto:contact@pharmacy.ohio.gov).
