How do I determine the category type for Terminal Distributors of Dangerous Drugs?

To determine the category type of terminal distributors, use the "LicenseCategoryNumber" column of the list, as follows:

License Category "2": This licensee may possess, have custody or control of, and distribute prescription drugs (including medical oxygen and other medical grade gases) that are not controlled substances.

License Category "3": This licensee may possess, have custody or control of, and distribute prescription drugs, including controlled substances contained in Schedules I, II, III, IV, or V.

IMPORTANT: If the "LicenseType" column indicates that the license is **LIMITED**, the licensee may only possess, have custody or control of, and distribute prescription drugs (including medical grade gases) on an approved drug list filed with the Board.
