Pursuant to Section 4729.16 of the Ohio Revised Code, and after consideration of the record as a whole, the State Board of Pharmacy hereby suspends indefinitely the pharmacist license No. 03-331122, held by Jordan Talbert and such suspension is effective as of the date of the mailing of this Order.

Jordan Talbert, pursuant to Rule 4729-9-01(F) of the Ohio Administrative Code, may not be employed by or work in a facility licensed by the State Board of Pharmacy to possess or distribute dangerous drugs during such period of suspension.

Further, after January 2021, the Board will consider any petition filed by Jordan Talbert for a hearing, pursuant to Ohio Revised Code Chapter 119., for reinstatement. The Board will only

Failure to adhere to the terms of the treatment contract will be considered a violation of the Board’s Order and subject Jordan Talbert to potential sanctions up to and including revocation of license. The contract must provide that:

   b. The urine sample must be given within twelve hours of notification. The urine drug screen must include testing for creatinine or specific gravity of the sample as the dilutional standard.
   c. Alcohol and Ethyl Glucoronide (ETG) must be added to the standard urine drug screen.
   d. Results of all drug screens must be negative. Refusal of a drug screen or a diluted drug screen is equivalent to a positive result. Any positive results, including those which may have resulted from ingestion of food, but excluding false positives which resulted from medication legitimately prescribed, indicates a violation of the contract.

3. Jordan Talbert shall not refuse an employer provided drug or alcohol screen. If the Board becomes aware of any positive drug or alcohol screen results that were obtained in the course of employment or any mechanism other than via the signed contract with ODMHAS, the Board shall treat these results as a violation of the Board’s Order and request Jordan Talbert reappear before the Board for possible additional sanctions, including and up to revocation of license.

The Board shall treat any such refusal as a violation of the Board’s Order and request Jordan Talbert reappear before the Board for possible additional sanctions, including and up to revocation of license.

5. Jordan Talbert must immediately report any violation of the terms of this suspension to the Board by contacting legal@pharmacy.ohio.gov. Failure to self-report any violation shall be treated as a violation of this Board’s Order and will subject Jordan Talbert to possible additional sanctions, including and up to revocation of license.

6. Jordan Talbert must demonstrate satisfactory proof to the Board that she/he is no longer addicted to or abusing liquor or drugs or impaired physically or mentally to such a degree as to render her unfit to practice pharmacy.

   b. Compliance with the continuing pharmacy education requirements set forth in Chapter 4729-7 of the Ohio Administrative Code as applicable and in effect on the date of petitioning the Board for reinstatement;
   c. Compliance with the terms of this Order.

9. Any reinstatement shall not occur until such time as any criminal intervention in lieu of conviction has been successfully completed.
10. Violation of any term of suspension, including but not limited to any violation of the contract signed with the ODMHAS or other approved treatment provider may result in additional action before the Board up to and including revocation of your pharmacy license.

11. Any violation of Chapters 2925., 3715., 3719., 4729., of the Ohio Revised Code, any administrative code violation or a violation of any other state or federal law will be considered a violation of this Order resulting in a hearing before the Board and may also result in criminal and/or administrative charges.

12. If Jordan Talbert’s employment is related to the practice of pharmacy, Jordan Talbert must notify employer of the terms of her suspension and this Board’s Order.

13. Failure to complete the terms set forth in this Board’s Order, or to petition for reinstatement within five years of the date of this Order, will result in the Board issuing a notice of opportunity for hearing to consider additional disciplinary action, including and up to revocation of Jordan Talbert’s license.

1:22 p.m. Ms. Dehner and Ms. Reed led a discussion on Standard Terms and Conditions for Board Orders and whether these terms should also include prohibiting a Pharmacist whose license has recently been reinstated and is not in ‘good standing’ from becoming a Designated Representatives at a medical marijuana facility. This term would mirror the prohibition on being a Responsible Person while on probation and/or not in good standing.

R-2020-0174 Mr. Cox moved that the Board add an additional standard condition prohibiting the ability to be a Designated Representative at a Dispensary or for Home Medical Equipment while on probation and/or not in good standing; further that the staff should approach recent reinstated pharmacists to update their Orders accordingly or bring back for additional proceedings consistent with Chapter 119 those who did not receive such language in their reinstatement Orders. The motion was seconded by Ms. Yarosh and approved by the Board: Aye-7, Nay-0.

1:56 p.m. Ms. Dehner presented Resolution: Notices of Opportunity for Hearing Are Public Record to the Board for approval.

R-2020-0175 Mr. Newlon moved that the Board approve the Resolution: Notices of Opportunity for Hearing Are Public Record. The motion was seconded by Ms. Yarosh and approved by the Board: Aye-7, Nay-0. The following resolution was adopted by the Board:
RESOLUTION: NOTICES OF OPPORTUNITY FOR HEARING ARE PUBLIC RECORD

The Board hereby finds good cause in the public’s accessibility of discipline of its licensees, including the allegations, potential violations of law, and with respect to subsequent Board Orders issued, the rationale underlying its disciplinary decisions to adopt the following ongoing resolution.

The Board hereby waives any right to confidentiality it holds under R.C. 4729.23 for notice letters issued by the Board pursuant to R.C. 119.07. The Board further waives any right to confidentiality it holds under R.C. 4792.23 for any documents that the Board submits as evidence at a hearing held pursuant to R.C. Chapter 119. The Board delegates to the Executive Director any other questions of whether “good cause” exists to release information that would otherwise be confidential under R.C. 4729.23.

The Board hereby waives any right to confidentiality it holds under Ohio Adm. Code 3796:6-4-02(F) for notice letters issued by the Board pursuant to R.C. 119.07. The Board further waives any right to confidentiality it holds under Ohio Adm. Code 3796:6-4-02(F) for any documents that the Board submits as evidence at a hearing held pursuant to R.C. Chapter 119. The Board expressly finds that including information in a publicly available notice letter issued under R.C. 119.07 is a permissible “use” of information that is “maintained for the use of the state board of pharmacy” and may be otherwise be confidential under Ohio Adm. Code 3796:6-4-02(F). The Board further finds that publicly introducing information or documents in a hearing held under R.C. Chapter 119 hearing is a permissible “use” of information that is “maintained for the use of the state board of pharmacy” and may be otherwise be confidential under Ohio Adm. Code 3796:6-4-02(F). The Board delegates to the Executive Director any other questions of whether an activity will be a permissible “use” of information or documents under Ohio Adm. Code 3796:6-4-02(F).

Nothing in this Resolution should be interpreted to impact any type of confidentiality other than those created by R.C. 4729.23 and Ohio Adm. Code 3796:6-4-02(F); information or documents might be confidential for some other reason such as patient confidentiality. Confidential patient keys (whether attached to notice letters or submitted as evidence at hearing) will continue to be confidential.

FINDINGS OF FACT

After having heard the testimony, observed the demeanor of the witnesses, considered the evidence, and weighed the credibility of each, the Board finds the following to be fact:

1. On June 12, 2019, a Board inspection of the Spring Valley Family Pharmacy (Spring Valley) revealed significant non-sterile compounding violations, which resulted in Spring Valley entering into an agreement with the Board to cease all non-sterile compounding and to stop dispensing any non-sterile compounded products that had already been prepared until the pharmacy was found by the Board to be compliant with USP 795, Chapter 4729 of the Ohio Revised Code, and Chapter 4729-16 of the Ohio Administrative Code. The following non-sterile compounding observations were noted during the inspection:

   a. Board staff observed a chicken incubator, with live poultry eggs, situated in the pharmacy’s non-sterile compound area. Though no live birds were observed, inspectors discovered evidence, in the form of bird excrement, within the compounding area suggesting poultry had, at one point, been within the pharmacy. RPh O’Callaghan reported that the poultry eggs being stored within the non-sterile compounding space were guinea hen eggs.

   b. A Tupperware container in the non-sterile compounding space was observed to contain a heat lamp, wood chip bedding and what appeared to be chicken feces. RPh O’Callaghan denied ever having live hens/chicks in his pharmacy, stating he brought the bin from home.

   c. RPh O’Callaghan admitted to a customer bringing live quail into his pharmacy, and reported these quail were kept in the pharmacy until the close of business. RPh O’Callaghan denied that the quail were allowed into the compounding area.

   d. Observed compounding implements (mortar/pestle) which did not appear clean and were covered in white powder.
e. The compounding area was used as record and expired medication storage.

f. Single use towels were not available in sink area of the compounding room.

g. Records of compounding were not maintained after approximately July or August 2018, despite the fact that compounding had occurred after that time. Initially, RPh O’Callaghan reported he maintained these records at his home, and later admitted he stopped recording anything.

h. Board staff observed evidence of compounded products which did not have an associated master formula.

i. Board staff observed compounding records which showed a 90 -day Beyond Use Date (BUD) had been assigned. No master formula record was available for review to determine if this was appropriate.

j. RPh O’Callaghan was not aware of which compounding regulations he should be following and was unfamiliar with USP 795. RPh O’Callaghan did not have a copy of or access to USP 795.

k. The pharmacy had no documented on-site compounding training.

l. RPh O’Callaghan initially denied compounding capsules of any sort but later admitted to compounding various capsule prescriptions. No compounding record of any capsule preparation could be located.

m. Records demonstrated a prescription for #90 ketamine 80 mg capsules was dispensed, and RPh O’Callaghan eventually admitted he had compounded these capsules. This prescription was written by a family practice doctor operating in Point Pleasant, WV. RPh O’Callaghan did not indicate he was concerned with a family practice doctor writing a prescription for oral ketamine to treat pain. When asked what reference he used to determine the appropriate dose, RPh O’Callaghan stated “Facts and Comparisons,” but he was unable to produce the reference when asked.

n. RPh O’Callaghan admitted to compounding capsules as small as 1 mg. Records indicate capsules were compounded as small as 0.25 mg. RPh O’Callaghan could not describe the principles of geometric dilution. RPh O’Callaghan admitted he felt uncertain when weighing such small amounts (1 mg).

o. Scales used in compounding were not “Legal for Trade” scales, nor had they been certified prior to use.
p. Board staff observed record of compounding which contained ingredient “0.033 ea Gabapentin 300 mg capsule.” RPh O’Callaghan could not provide an adequate answer as to how he would weigh such a product and later admitted he could not.

q. Board staff observed a record of compounding in which a listed ingredient (glycerin) was crossed out. When asked, RPh O’Callaghan stated he added glycerin to the ingredient list as a convenience for him, since it made the process faster, but that it was not necessary and he did not use it when it wasn’t in stock.

r. Board staff observed record of compounding for “Bralal Ease Cream” which lacked lot and expiration information for lidocaine powder, one of the ingredients.

s. Board staff observed multiple records of compounding which did not contain required information such as lot/expiration, product Beyond Use Date (BUD), or indication of individual responsible for compounding/RPh responsible for verifying.

t. The compounding area contained a microwave and toaster oven which RPh O’Callaghan admitted were used to warm employee food.

u. Board staff observed gun bore cleaner and cleaning supplies (Fantastik) stored with items used for compounding.

v. The pharmacy did not maintain compounding standard operating procedures.

2. The following general pharmacy practice violations were also noted during the June 12, 2019 inspection:

a. Positive ID was not being appropriately maintained. From May 19, 2019 to present, fifteen End of Day (EOD) reports were observed to be missing.

b. Pharmacy personnel were unable to show how a true audit trail was being kept for changes made to dispensing data.

c. Controlled substance prescription written dates (prescription numbers 412760 and 412758) were different between the hard copy and the dispensing software.

d. Pharmacist Karen McGhee logged into dispensing software on June 10, 2019 and June 11, 2019 with RPh O’Callaghan’s credentials. O’Callaghan was not working either day.

e. The pharmacy had lack of adequate security to detect and deter diversion – controlled substance drug stock was stored dispersed among non-controlled drug stock. Large numbers (estimated at greater than 30) of buprenorphine/naloxone 8 mg/2mg bottles were stored haphazardly in the compounding room. Additionally, the compounding room contained multiple stock bottles of various controlled that were not locked up.
f. The pharmacy shelves and bottles were very dusty and multiple medication bottles were observed under the refrigerator.

g. Multiple instances of expired drugs within active dispensing stock were observed.

h. A bottle of Jantoven 5 mg with a patient specific label from Fruth Pharmacy was observed within the active drug stock.

i. RPh O’Callaghan admitted to having no vaccine protocol; no protocol had been created, reviewed, or signed by a physician. Since opening in 2017, records indicate that more than 100 vaccines, including influenza and hepatitis A, had been administered to patients. During the inspection, RPh O’Callaghan stated he had never administered a vaccine to a patient less than 18 years of age. However, Board staff observed an opened and 60% used box of Havrix (Hep A) 720 EL u/0.5 mL vaccine, which is the Hepatitis A vaccine dose for pediatrics and adolescents. The box clearly states “For Pediatric/Adolescent Use Only.” No record of this vaccine ever being administered could be located, either within the ARKS, or on paper, although the ARKS did identify 74 patients who allegedly received the adult dose. RPh O’Callaghan later admitted that, on some occasions, he administered the pediatric dose of Havrix to adults.

j. Few records documenting vaccine administration (lot/exp, etc.) could be located.

k. RPh O’Callaghan frequently failed to check OARRS as required in OAC 4729-5-20.

l. RPh O’Callaghan admitted to providing his OARRS username and password to Spring Valley personnel.

m. Reportable controlled substance prescriptions were observed which had been filled but not reported to OARRS. This included a phentermine prescription for a pharmacy employee.

n. A pharmacy technician admitted to RPh O’Callaghan having knowledge of a fraudulent dextroamphetamine/amphetamine prescription, which the technician produced and RPh O’Callaghan dispensed.

o. The pharmacy was unable to produce an annual controlled substance inventory for either 2018 or 2019. A spot check by a Board inspector on June 12, 2019, revealed discrepancies between the perpetual inventory maintained in the computer and actual on hand stock.

3. During a return visit to the pharmacy for a follow-up inspection on or about June 17, 2019, Board staff observed RPh O’Callaghan, the Responsible Person, owner and primary operator of Spring Valley, to be impaired, displaying slurred speech, incoherent thought processes, and extreme fatigue with drooping eyelids. RPh O’Callaghan admitted to illicit drug usage
including cocaine, and methamphetamine, as well as taking a relative’s prescription Adderall Rx and alcohol. On June 18, 2019, the Board summarily suspended RPh O’Callaghan’s pharmacist license, which resulted in Spring Valley having no Responsible Person. On June 19, 2019, RPh O’Callaghan admitted to agents of the Board that he is addicted to methamphetamine.

**FINDINGS OF FACT**

After having heard the testimony, observed the demeanor of the witnesses, considered the evidence, and weighed the credibility of each, the Board finds the following to be fact:
1. On or about June 17, 2019, during an inspection of Spring Valley Family Pharmacy (Spring Valley), where Brandon O’Callaghan was the Responsible Person, owner and primary operator, Board staff observed Brandon O’Callaghan to be impaired, displaying slurred speech, incoherent thought processes, and extreme fatigue with drooping eyelids. Brandon O’Callaghan admitted to illicit drug usage including cocaine and methamphetamine, as well as taking a relative’s prescription Adderall and alcohol. On June 19, 2019 Brandon O’Callaghan admitted to agents of the Board that he was addicted to methamphetamine.

2. On or about June 12, 2019, a Board inspection of Spring Valley revealed the following non-sterile compounding observations were noted during the inspection:

   a. Board staff observed a chicken incubator, with live poultry eggs, situated in the pharmacy’s non-sterile compound area. Though no live birds were observed, inspectors discovered evidence, in the form of bird excrement, within the compounding area suggesting poultry had, at one point, been within the pharmacy. Brandon O’Callaghan reported that the poultry eggs being stored within the non-sterile compounding space were guinea hen eggs.

   b. A Tupperware container in the non-sterile compounding space was observed to contain a heat lamp, wood chip bedding and what appeared to be chicken feces. Brandon O’Callaghan denied ever having live hens/chicks in the pharmacy, stating that he brought the bin from home.

   c. Brandon O’Callaghan admitted to a customer bringing live quail into his pharmacy, and reported these quail were kept in the pharmacy (denied keeping them in the compounding area) until the close of business.

   d. Observed compounding implements (mortar/pestle) which did not appear clean and were covered in white powder.

   e. The compounding area was used as record and expired medication storage.

   f. Single use towels were not available in sink area of the compounding room.

   g. Records of compounding were not maintained after approximately July or August, 2018. Initially, Brandon O’Callaghan reported that he maintained these records at his home, and later admitted that he stopped recording anything.

   h. Board staff observed evidence of compounded products which did not have an associated master formula.
i. Board staff observed compounding records which showed a 90-day Beyond Use Date (BUD) had been assigned. No master formula record was available for review to determine if this was appropriate.

j. Brandon O’Callaghan was not aware of which compounding regulations he should be following and were unfamiliar with USP 795. Brandon O’Callaghan did not have a copy of or access to USP 795.

k. The pharmacy had no documented on-site compounding training.

l. Brandon O’Callaghan initially denied compounding capsules of any sort but later admitted to compounding various capsule prescriptions. Although no accurate number could be ascertained due to poor recordkeeping, Brandon O’Callaghan described a green/black capsule blank obtained from Medisca that he used (and no longer had in stock). Specialist Bolus observed these capsule blanks were available in a minimum package size of 1000. No compounding record of any capsule preparation could be located.

m. Records demonstrated a prescription for #90 ketamine 80 mg capsules was dispensed, and Brandon O’Callaghan eventually admitted that he had compounded these capsules. This prescription was written by a family practice doctor operating in Point Pleasant, WV. Brandon O’Callaghan did not indicate that he was concerned that a family practice doctor was writing a prescription for oral ketamine to treat pain. When asked what reference he used to determine the appropriate dose, Brandon O’Callaghan stated “Facts and Comparisons,” but he was unable to produce the reference when asked.

n. Brandon O’Callaghan admitted to compounding capsules as small as 1 mg. Records indicate capsules were compounded as small as 0.25 mg. Brandon O’Callaghan could not describe the principles of geometric dilution. Brandon O’Callaghan admitted that he felt uncertain when weighing such small amounts (1 mg).

o. Scales used in compounding were not “Legal for Trade” scales, nor had they been certified prior to use. Brandon O’Callaghan admitted to purchasing one of the scales, allegedly capable of measuring down to 0.001 g, from Amazon. Specialist Bolus observed this “Gem20” scale was available on Amazon for $21.99. The other scale used was found online as a recommendation for middle and high school science teachers to use in student labs.

p. Board staff observed record of compounding which contained ingredient “0.033 ea Gabapentin 300 mg capsule.” Brandon O’Callaghan could not provide an adequate answer as to how he would weigh such a product and later admitted that he could not.

q. Board staff observed record of compounding in which a listed ingredient (glycerin) was crossed out. When asked, Brandon O’Callaghan stated that he added glycerin to the
ingredient list as a convenience, since it made the process faster, but that it was not necessary and he did not use it when it wasn’t in stock.

r. Board staff observed record of compounding for “Branal Ease Cream” which lacked lot and expiration information for lidocaine powder, one of the ingredients.

s. Board staff observed multiple records of compounding which did not contain required information such as lot/expiration, product Beyond Use Date (BUD), or indication of individual responsible for compounding/RPh responsible for verifying.

t. The compounding area contained a microwave and toaster oven which Brandon O’Callaghan admitted were used to warm employee food.

u. Board staff observed gun bore cleaner and cleaning supplies (Fantastik) stored with items used for compounding.

v. The pharmacy did not maintain compounding standard operating procedures.

3. The following general pharmacy practice violations were also noted during the June 12, 2019 inspection:

a. Positive ID was not being appropriately maintained. From May 19, 2019 to present, fifteen End of Day (EOD) reports were observed to be missing.

b. Pharmacy personnel were unable to show how a true audit trail was being kept for changes made to dispensing data.

c. Controlled substance prescription written dates (prescription numbers 412760 and 412758) were different between the hard copy and the dispensing software.

d. Pharmacist Karen McGhee logged into dispensing software on June 10, 2019 and June 11, 2019 with Brandon O’Callaghan’s credentials. Brandon O’Callaghan was not working either day.

e. The pharmacy had lack of adequate security to detect and deter diversion – controlled substance drug stock was stored dispersed among non-controlled drug stock. Large numbers (estimated at greater than 30) of buprenorphine/naloxone 8 mg/2mg bottles were stored haphazardly in the compounding room. Additionally, the compounding room contained multiple stock bottles of various controlled substances were not locked up.

f. The pharmacy shelves and bottles were very dusty and multiple medication bottles were observed under the refrigerator.

g. Multiple instances of expired drugs within active dispensing stock were observed.
h. A bottle of Jantoven 5 mg with a patient specific label from Fruth Pharmacy was observed within the active drug stock.

i. Brandon O’Callaghan admitted to having no vaccine protocol; no protocol had been created, reviewed, or signed by a physician. Since opening in 2017, records indicate that more than 100 vaccines, including influenza and hepatitis A, had been administered to patients. During the inspection Brandon O’Callaghan stated that he had never administered a vaccine to a patient less than 18 years of age. However, Board staff observed an opened and 60% used box of Havrix (Hep A) 720 EL u/0.5 mL vaccine, which is the Hepatitis A vaccine dose for pediatrics and adolescents. The box clearly states “For Pediatric/Adolescent Use Only.” No record of this vaccine ever being administered could be located, either within the ARKS, or on paper, although the ARKS did identify 74 patients who allegedly received the adult dose. Brandon O’Callaghan later admitted that, on some occasions, he administered the pediatric dose of Havrix to adults.

j. Few records documenting vaccine administration (lot/exp, etc.) could be located.

k. Brandon O’Callaghan frequently failed to check OARRS as required in OAC 4729-5-20.

l. Brandon O’Callaghan admitted to providing his OARRS username and password to Spring Valley personnel.

m. Reportable controlled substance prescriptions were observed which had been filled but not reported to OARRS. This included a phentermine prescription for a pharmacy employee.

n. A pharmacy technician admitted that Brandon O’Callaghan had knowledge of a fraudulent dextroamphetamine/amphetamine prescription, which the technician produced, and Brandon O’Callaghan dispensed.

o. The pharmacy was unable to produce an annual controlled substance inventory for either 2018 or 2019. A spot check by a Board inspector on June 12, 2019, revealed discrepancies between the perpetual inventory maintained in the computer and actual on hand stock.

DECISION OF THE BOARD

Pursuant to Section 3719.121 of the Ohio Revised Code, the State Board of Pharmacy hereby removes the Summary Suspension Order issued to Brandon O’Callaghan on June 19, 2019.

Pursuant to Section 4729.16 of the Ohio Revised Code, and after consideration of the record as a whole, the State Board of Pharmacy hereby suspends indefinitely the pharmacist identification card, No. 03-226367, held by Brandon O’Callaghan and such suspension is effective as of the date of the mailing of this Order.

1. Brandon O’Callaghan, pursuant to Rule 4729-9-01(F) of the Ohio Administrative Code, may not be employed by or work in a facility licensed by the State Board of Pharmacy to possess or distribute dangerous drugs during such period of suspension.

2. Brandon O’Callaghan, pursuant to Section 4729.16(B) of the Ohio Revised Code, must return his identification card and license (wall certificate) to the office of the State Board of Pharmacy within ten days after receipt of this Order unless the Board office is already in possession of both. The identification card and wall certificate should be sent by certified mail, return receipt requested.

Further, after 24 months from the effective date of this Order, the Board will consider any petition filed by Brandon O’Callaghan for a hearing, pursuant to Ohio Revised Code Chapter 119., for
reinstatement. The Board will only consider reinstatement of the license to practice pharmacy in Ohio if the following conditions have been met:

14. Brandon O’Callaghan must maintain a current address with the Board throughout the duration of the suspension.

15. Brandon O’Callaghan must enter into and adhere to the terms of a new contract, signed within thirty days after the effective date of this Order, with an Ohio Department of Mental Health and Addiction Services (ODMHAS) treatment provider or a treatment provider acceptable to the Board for a period of not less than five years and, upon signing, submit a copy of the contract to the Board office. Failure to adhere to the terms of the treatment contract will be considered a violation of the Board’s Order and subject Brandon O’Callaghan to potential sanctions up to and including revocation of license. The contract must provide that:

i. Random, observed urine drug screens shall be conducted at least once each month.

j. The urine sample must be given within twelve hours of notification. The urine drug screen must include testing for creatinine or specific gravity of the sample as the dilutional standard.

k. Alcohol and Ethyl Glucoronide (ETG) must be added to the standard urine drug screen.

l. Results of all drug screens must be negative. Refusal of a drug screen or a diluted drug screen is equivalent to a positive result. Any positive results, including those which may have resulted from ingestion of food, but excluding false positives which resulted from medication legitimately prescribed, indicates a violation of the contract.

m. In the event of a negative diluted screen, a hair sample test must be completed at the cost of the Brandon O’Callaghan in a timeframe consistent with the drug lab’s recommended policy, but in any event no later than 12 days after the negative diluted screen.

n. The intervener/sponsor shall submit reports to the Board, in a format acceptable to the Board, indicating drug screens and their results in a timely fashion. Actual copies of drug screens shall be made available to the Board upon request.

p. The program shall immediately report to the Board any violations of the contract and/or lack of cooperation.

16. Brandon O’Callaghan shall not have access to Spring Valley Family Pharmacy while Spring Valley’s TDDD license is suspended or is operating under probationary terms, regardless of whether Brandon O’Callaghan’s pharmacist license is reinstated.

17. Brandon O’Callaghan shall not refuse an employer provided drug or alcohol screen. If the Board becomes aware of any positive drug or alcohol screen results that were obtained in the course of employment or any mechanism other than via the signed contract with ODMHAS, the Board shall treat these results as a violation of the Board’s Order and request Brandon O’Callaghan reappear before the Board for possible additional sanctions, including and up to revocation of license.

18. Brandon O’Callaghan shall not refuse a breathalyzer or other drug testing requested by law enforcement during the duration of suspension. The Board shall treat any such refusal as a violation of the Board’s Order and request Brandon O’Callaghan reappear before the Board for possible additional sanctions, including and up to revocation of license.

19. Brandon O’Callaghan must immediately report any violation of the terms of this suspension to the Board by contacting legal@pharmacy.ohio.gov. Failure to self-report any violation shall be treated as a violation of this Board’s Order and will subject Brandon O’Callaghan to possible additional sanctions, including and up to revocation of license.

20. Brandon O’Callaghan must demonstrate satisfactory proof to the Board that he is no longer addicted to or abusing liquor or drugs or impaired physically or mentally to such a degree as to render her unfit to practice pharmacy.

21. Brandon O’Callaghan must provide, in the reinstatement petition, documentation of the following:

Pharmacist Licensure Examination (NAPLEX) and the Multistate Pharmacy Jurisprudence Exam (MPJE), or an equivalent examination(s) approved by the Board.

23. Any reinstatement shall not occur until such time as any criminal intervention in lieu of conviction has been successfully completed.

24. Violation of any term of suspension, including but not limited to any violation of the contract signed with the ODMHAS or other approved treatment provider may result in additional action before the Board up to and including revocation of Brandon O’Callaghan pharmacy license.

25. Any violation of Chapters 2925., 3715., 3719., 4729., of the Ohio Revised Code, any administrative code violation or a violation of any other state or federal law will be considered a violation of this Order resulting in a hearing before the Board and may also result in criminal and/or administrative charges.

26. If Brandon O’Callaghan’s employment is related to the practice of pharmacy, Brandon O’Callaghan must notify employer of the terms of his suspension and this Board’s Order.

27. Failure to complete the terms set forth in this Board’s Order, or to petition for reinstatement within five years of the date of this Order, will result in the Board issuing a notice of opportunity for hearing to consider additional disciplinary action, including and up to revocation of Brandon O’Callaghan’s license.

DECISION OF THE BOARD

After thorough review of the entire administrative record, the Board hereby adopts in its entirety Hearing Examiner Rosan’s Report and Recommendation, as it relates to the Board’s Notice of Opportunity of Hearing/Notice of Intent to Deny Application for Medical Marijuana Dispensary License to Cannabiz, LLC for Application ID 959, including the Findings of Fact and Conclusions of Law, subject to the following modifications:

Paragraph 112:

The Board modifies the standard of proof to remain consistent with the law applicable to administrative cases. The appropriate standard of proof in administrative cases is a
preponderance of the evidence.  *VFW Post 8586 v. Ohio Liquor Control Comm.*, 83 Ohio St.3d 79, 81, 697 N.E.2d 655 (1998); *see also Ohio State Bd. of Pharmacy v. Weinstein*, 33 Ohio Misc.2d 25, 27, 514 N.E.2d 1143 (C.P.1987); *Buckeye Bar, Inc. v. Liquor Control Comm.*, 32 Ohio App.2d 89, 91, 288 N.E.2d 318 (10th Dist.1972). Preponderance of the evidence means “more likely than not.” Here, the Hearing Examiner applied the standard of review upon appeal of an agency’s order to a court of common pleas. See R.C. 119.12(M) (“The court may affirm the order of the agency complained of in the appeal if it finds, upon consideration of the entire record and any additional evidence the court has admitted, that the order is supported by reliable, probative, and substantial evidence and is in accordance with law. In the absence of this finding, it may reverse, vacate, or modify the order or make such other ruling as is supported by reliable, probative, and substantial evidence and is in accordance with law.”); see also *Burneson v. Ohio State Racing Comm’n*, 10th Dist. Franklin No. 03AP-925, 2004-Ohio-3313, ¶ 6.

The Hearing Examiner correctly provided that “a government agency is bound to adhere to…[the] conditions and provisions it had itself set forth in the RFP.” *Report & Recommendation* at ¶ 71, citing *Danis Clarkco Landfill Co. v. Clark Cty. Solid Waste Mgt. Dist.*, 73 Ohio St.3d 590, 603, 653 N.E.2d 646 (1995). The Hearing Examiner also stated correctly that “a disappointed bidder (or applicant) must show the agency either committed fraud or abused its discretion in awarding funding (or, in this case, a license) elsewhere.” *Report & Recommendation* at ¶ 72, citing *Danis Clarkco Landfill Co.* at 605. To establish an abuse of discretion, the Hearing Examiner correctly noted, “the supposedly aggrieved party must demonstrate that the government agency acted in bad faith, or with an unreasonable, arbitrary, or unconscionable attitude.” *Report & Recommendation* at ¶ 73, citing *Danis Clarkco Landfill Co.* at 605.

Thus, to prevail, Respondent was required to prove by a preponderance of the evidence that the Board abused its discretion by acting in bad faith or in a way that was unreasonable, arbitrary, or unconscionable.

Applying the appropriate standard of proof, the Board agrees with the Hearing Examiner’s conclusion and finds Respondent failed to establish by a preponderance of the evidence that “the Board’s selection of the evaluators and their use of the ‘key indicators’ to evaluate the applications, prejudiced the Respondent to a greater degree than any other applicant.”

**Paragraph 113:**

As detailed above, the Board modifies the standard of proof to remain consistent with the law applicable to administrative cases. Thus, to prevail, Respondent was required to prove by a preponderance of the evidence that the Board abused its discretion by acting in bad faith or in a way that was unreasonable, arbitrary, or unconscionable in scoring and ultimately denying Respondent’s application.

Applying the appropriate standard of proof, the Board concludes that Respondent did not prove by a preponderance of the evidence that the Board acted in bad faith, or with an unreasonable, arbitrary, or unconscionable attitude, in scoring and ultimately denying Respondent’s application.
The Board confirms and approves the Report and Recommendation of Hearing Examiner Rosan, affirming the Board’s license award process, which includes a denial of a Dispensary Provisional License to Cannabiz, LLC Application ID 959, on the grounds that Respondent does not qualify for a dispensary license because its score fell below the minimum level required for licensure. The Board finds Respondent failed to prove by a preponderance of the evidence that the Board abused its discretion in the evaluation and scoring of Application ID 959. The Board affirms its determination to deny Applicant’s application for a license as a Medical Marijuana Dispensary under authority of Section 3796.14(B) of the Ohio Revised Code and Chapter 3796:6 of the Ohio Administrative Code, because Respondent’s score was not high enough to qualify Applicant to receive a Dispensary Provisional License in District Northwest-1.

Ms. Rudell moved to confirm and approve the Report and Recommendation of Hearing Examiner Rosan, subject to the modifications set forth herein. Mr. Newlon seconded the motion. Motion passed (Aye-5/Nay-0).

SO ORDERED.

R-2020-0239 After votes were taken in public session, the Board adopted the following order in the matter of Melinda West, Dayton, OH.
ORDER OF THE STATE BOARD OF PHARMACY  
(2018-1606)  

In The Matter Of:

2012 Bohemian Avenue

Marchal, RPh; Richard J. Newlon, Public Member; Jennifer M. Rudell, RPh; Fred M. Weaver, RPh; Shawn C. Wilt, Presiding, RPh; and Kilee S. Yarosh, RPh.  

BOARD REVIEW OF THE RECORD  

The Board reviewed the entire administrative record in this matter prior to making its decision, which included the following items: Hearing transcript; State of Ohio Exhibits 1, 2, 3, 4a, 4b, 5, 6, 7, 8*, 9*, 10, and 11; Respondent Exhibits A, B, and C; and Hearing Examiner Weida’s Report and Recommendation.  

*Exhibit 8 and Exhibit 9 were placed under seal.  

DECISION OF THE BOARD  

FINDINGS OF FACT  

After thorough review of the entire administrative record, the Board hereby confirms and approves Hearing Examiner Weida’s Findings of Fact, Paragraphs (2) through (8).  

The Board hereby modifies the Finding of Fact contained within Paragraph (1) from “…due to violations of Chapter 4727 of the Ohio Revised Code” to read “…due to violations of Chapter 4729 of the Ohio Revised Code…” (Emphasis added.).
CONCLUSIONS OF LAW

After thorough review of the entire administrative record, the Board hereby confirms and approves Hearing Examiner Weida’s Conclusions of Law, Paragraphs 1(a), 1(e), (2), and (3). The Board disapproves Conclusion of Law 1(b), because it was not included as an alleged “Potential Violation of Law” in the Notice of Opportunity for Hearing dated December 3, 2018.

After thorough review of the entire administrative record, the Board hereby modifies the following Conclusions of Law contained within Paragraph (4) to reflect the correct Administrative Code sections at the time Respondent submitted the application for registered pharmacy technician registration:

- “Pursuant to Section 4729:3-4-01(C) of the Administrative Code...” to “Pursuant to Section 4729:3-4-01(B) of the Administrative Code...” (Emphasis added.).

- “(7) Committed an act involving moral turpitude that constitutes a misdemeanor or felony in this state, regardless of the jurisdiction in which the act was committed. ... to “(6) Committed acts of moral turpitude.”

- “(8) Engaged in dishonesty or unprofessional conduct” to the following:
  - “(7) Engaged in dishonesty. Dishonesty includes, but is not limited to, making any statement intended to deceive, misrepresent or mislead anyone, or be a party to or an accessory to any fraudulent or deceitful practice or transaction in a licensed location or in the operation or conduct of a licensed location, OAC Rule 4729:3-4-01(B)(7).”

After thorough review of the entire administrative record, the Board hereby finds the following additional Conclusions of Law as referenced in the December 3, 2018 Notice of Opportunity for Hearing’s “Potential Violations of Law” section:

- Melinda West engaged in conduct as set forth in the Findings of Fact that constitutes a violation of Rule 4729:3-1-01(G) of the Ohio Administrative Code, not of good moral character and habits. See State of Ohio Exhibit 5, Exhibit 7, Exhibit 8, and Exhibit 9; Tr. at 12-16.

- Melinda West engaged in conduct as set forth in the Findings of Fact that demonstrates Melinda West violated, conspired to violate, attempted to violate, or aided and abetted the violation of any of the provisions of Chapter 3715.75 to 3715.72 of the Revised Code, Chapter 2925. or 3719. of the Revised Code, or any rule adopted by the board under those provisions. See State of Ohio Exhibit 7, Exhibit 8, and Exhibit 9; Tr. at 12-16;

4 Ohio Adm.Code 4729:3-4-01 was amended, effective March 1, 2019.
• Melinda West engaged in any conduct for which the board may impose discipline as set forth in rules adopted under section 4729.94 of the Revised Code. See Exhibit 7, Exhibit 8, and Exhibit 9; Tr. at 12-16; and

• Melinda West has been convicted of, plead guilty to, is subject to a judicial finding of eligibility for intervention in lieu of conviction in this state under section 2951.041 of the Revised Code or the equivalent thereof in another jurisdiction. See Exhibit 7, Exhibit 8, and Exhibit 9; Tr. at 12-16.

DECISION OF THE BOARD

In reviewing the hearing transcript, including Melinda West’s explanation in falsifying her application for registration as a registered pharmacy technician, the exhibits admitting by the State and Melinda West, the Board finds that convictions set forth in Exhibit 8 and Exhibit 9 bear a direct and substantial relationship to the registration applied for by Melinda West. Accordingly, the State of Ohio was permitted to inquire as to those convictions, notwithstanding the fact that those convictions were sealed pursuant to R.C. 2953.32. See R.C. 2953.33(B)(1) (“...a person may be questioned only with respect to convictions not sealed * * * unless the question bears a direct and substantial relationship to the position for which the person is being considered.”). Additionally, the Board notes that Ohio Adm.Code 4729:5-3-10 provides, “Pursuant to 21 C.F.R. 1301.76 [], a terminal distributor of dangerous drugs that is a United States drug enforcement administration registrant shall not employ in a position which allows access to controlled substances any person who has been convicted of a felony relating to controlled substances * * * unless a waiver is obtained pursuant to 21 C.F.R. 1307.03.”

Accordingly, on the basis of Findings of Fact (1) through (8) and Conclusions of Law (1) through (4) as confirmed and approved or modified by the Board, the Board hereby disapproves the Hearing Examiner’s Recommendation that Melinda West be issued a registration as a registered pharmacy technician with conditions deemed appropriate and necessary by the Board and denies Melinda West’s application for registration as a registered pharmacy technician.

Ms. Marchal moved to approve and confirm Hearing Examiner Weida’s Report and Recommendation, subject to the modifications set forth herein. Ms. Rudell seconded the motion. Motion passed (Aye-5/Nay-0).

Appel, Assistant Attorney General. The Hearing Examiner’s Report and Recommendation was served upon the Respondent on or about September 3, 2019 and, without having received any written objections, the matter subsequently came for consideration by the Board on November 6, 2019, before the following members of the State of Ohio Board of Pharmacy (Board): Shawn C. Wilt, RPh, Presiding; Megan E. Marchal, RPh; Richard J. Newlon, Public Member; Jennifer M. Rudell, RPh; Fred M. Weaver, RPh; and Kilee S. Yarosh, RPh.

BOARD REVIEW OF THE RECORD

The Board reviewed the entire administrative record in this matter prior to making its decision, which included the following items: State’s Exhibits numbered (1) through (7), the hearing transcript, and Hearing Examiner Weida’s Report and Recommendation.

DECISION OF THE BOARD

After thorough review of the entire administrative record, the Board hereby confirms and approves Hearing Examiner Weida’s Findings of Facts (1) through (10), including those that specifically relate to the Board’s Notice letter dated January 24, 2019.
The Board confirms and approves Conclusions of Law (1), (2) and (4) as set forth by Hearing Examiner Weida as they relate to the Violations of Law in the Notice of Hearing issued by the Board on January 29, 2019.

The Board further modifies the Report and Recommendation to amend the OAC Rules in Conclusion of Law (6) as follows:

(a) Has engaged in any of the conduct specified in division (A)(2) of section 4729.96 of the Revised Code, OAC Rule 4729:3-4-01(B)(1).
(b) Violated any state or federal law or rule regardless of jurisdiction in which the acts were committed, except for minor traffic violations, speeding tickets and violations such as failure to obey a red light, failure to use a turn signal or expired registration, OAC Rule 4729:3-04-01(B)(2).
(d) Committed acts of moral turpitude, OAC Rule 4729:3-4-01(B)(6).
(e) Has engaged in dishonesty, OAC Rule 4729:3-4-01(B)(7).
(f) Has engaged in unprofessional conduct, (B)(8).

The Board further modifies the Report and Recommendation to include a finding of the violations of law as set forth in the Notice of Hearing dated January 24, 2019 paragraphs:

(3) Not of good moral character and habits, in violation of ORC Section 4729.92(A)(1) and OAC Rule 4729:3-1-01(G).
(5) Is addicted to or abusing alcohol or drugs, or is impaired physically or mentally to such a degree as to render the individual unable to perform the individual’s duties, in violation of ORC Section 4729.96(A)(2)(c).
(6)(a) Committed acts that constitute moral turpitude as defined in section 4776.10 of the Revised Code or gross immorality, OAC Rule 4729:3-4-01(B)(5)

All three violations of law are supported based on the evidence in the record. This evidence includes:

(a) Mr. Selbe testified to stealing six oxycodone pills from the pharmacy. Transcript, pgs. 13 and 15.
(b) Mr. Selbe testified to the recreational use of marijuana. Transcript, pgs. 16 and 23.
