September 7, 2012

The Ohio State Board of Pharmacy announced today that the Ohio Automated Rx Reporting System (OARRS) has released a new enhanced investigative tool for law enforcement and investigative agencies to assist in the fight on Ohio's prescription drug abuse problem.

Our Law Enforcement partners will now have the ability to request and receive OARRS. data in either the traditional PDF format or the *NEW* Excel format. You will see this option on the webpage next time you make a request from OARRS. This is an exciting new tool that will be a tremendous asset to law enforcement and other investigative agencies in reviewing and analyzing the data received from OARRS in a more efficient and effective manner. The Ohio Board of Pharmacy is committed to working with our Law Enforcement partners to combat the prescription drug problems.

Danna E. Droz, R.Ph., JD
