

**STATE OF  
OHIO**  
BOARD OF PHARMACY

---

## **In-State and Non-Resident Nuclear Pharmacy Rules Effective 2/1/2022**

---

Effective February 1, 2022, new in-state and non-resident nuclear pharmacy rules go into effect.

To assist licensees in complying with these rules, the Board developed the following guidance documents:

- [Non-Resident Nuclear Pharmacy Requirements](#)
- [Requirements for Ohio Nuclear Pharmacies](#)

Licensees are strongly encouraged to review these guidance materials and the rule text. Links to the new rules are included in each document.

Ohio institutional facilities with on-site nuclear pharmacies are required to submit notification to the Board to comply with the new rules. For more information on these notification requirements, click [here](#).

**REMINDER: These rules do not apply to prescribers engaged in the preparation, preparation with minor deviation, compounding, dispensing, personally furnishing, or repackaging of radiopharmaceuticals. NOTE: Ohio prescribers are required to comply with [Chapter 3701:1-58](#) of the Administrative Code.**
