

**STATE OF
OHIO**
BOARD OF PHARMACY

Board Approves Additional Drugs for Chemical Capture

Section [4729.542](#) of the Ohio Revised Code and rule [4729:5-15-05](#) of the Ohio Administrative Code allow an animal shelter or county dog warden that holds a limited terminal distributor of dangerous drugs license to apply for a chemical capture classification. This classification permits the holder to purchase, possess, and administer a combination of drugs for the chemical capture of companion animals.

Effective January 23, 2023, rule [4729:5-15-05](#) will permit licensees holding a chemical capture classification to utilize three additional reversal agents as part of the chemical capture process: Yohimbine, Tolazoline, and Atipamezole.
