

Board of Pharmacy

CORRECTION: Earlier today, the Board of Pharmacy sent out a message to certified pharmacy technicians regarding their renewal requirements that did not include all of the information they needed for renewal. A corrected version of this notice is below.

Certified Pharmacy Technician Renewal and Continuing Education Requirements

Certified pharmacy technician renewal opened on **Thursday, August 1, 2024**. As part of the renewal process, and as a condition of maintaining a valid Ohio registration, a certified pharmacy technician is required to maintain a pharmacy technician certification (ExCPT or PTCB).

The Board regularly monitors certification status and will place a status of Active – Restricted on a technician's Board registration if their national certification has lapsed. Information on how to have the Restricted sub-status removed [can be found on the Board's website](#).

Failure to maintain an ExCPT or PTCB certification may result in disciplinary action by the Board. Therefore, all Ohio certified technicians should make sure they have valid certifications before renewing their registration.

A certified technician is **not** required to complete the ten contact hours of continuing education that is required for registered pharmacy technicians. The continuing education reported to the certification body (PTCB or NHA for ExCPT) fulfills a certified technician's continuing education obligation.
